ICAO Global

ICAO SLEDs: Register of State Letters

The only way most controllers can respond to ICAOs' proposed changes is through IFATCA's 'observer status' with ICAO. All ICAO State Letters (SLEDs) sent to IFATCA are forwarded to our Member Associations through the IWEN and our MAs can respond to the IFATCA CONTACT listed in the 'REGISTER OF STATE LETTERS' in IWEN. You, the MA, can consider the State Letters and forward your view to the IFATCA contact by the date in the 'REPLY TO/BY' date column. These views will be collated by the Executive Board and included in the preparation material for our response to ICAO, allowing us to have a broader cross-section of views from the ATC community as well as providing MAs with this unique opportunity.

ICAO Regional

Regional and Global Air Navigation Reporting

ICAO APAC
APANPIRG/24 noted that the online regional 'Performance Dashboard' would illustrate the regional implementation status of air navigation systems and the annual Global Air Navigation Report would assist PIRGS and States in understanding which areas require special attention to effectively improve air navigation performance worldwide as well as to help propagate information on success stories.

30th IFATCA Asia Pacific Regional Meeting, Tehran

10 August 2013
Hi Everybody,
Just a quick update on our upcoming Regional Meeting. The dates again: 27 - 29 October 2013
Ali Haghghi and his team are well underway with their plans to accommodate us and together we will be hope to have a finalised draft of the meeting agenda with the coming fortnight. No doubt this is a considerable undertaking for Iran-ATC and they are working working very hard to make this an enjoyable and informative conference, plus the opportunity to showcase their country.
All is asking for working papers to be sent to either Chairman@aprm2013.com or A.djinn@gmail.com with focus on Controller selection, training requirement, human resource outlook, Occupational diseases, Staff shortage, controller satisfaction, ATC Training Manual?
One are of concern for Ali is the lack of registrations and just as importantly the submission of applications and travel details in advance, so the appropriate paper work can be done for Visa processing. Ali has requested that even if you are not confirmed as attending, but are considering it, please provide him with your personal details and passport information. He and his committee want to minimise any inconvenience to participants in Visa application processing.
Hopefully you will give this information the widest possible circulation and promotion within your Association and forward any working papers as soon as possible. The meeting promises to be a standout event due to the location and effort being put into developing the technical and social programs.
The web site address is also posted below.
<http://www.aprm2013.com/>
All the best with your travel plans and being able to get time off from your employer to attend the meeting. Please prioritize Ali's request above and hopefully see you in Iran in October.
On behalf of Ali and his crew,
Regards
Mike O'Neill
