Dear Friend,

Presenting IWEN 42 of 2013.

The next edition of IWEN will be delayed as I will be attending the IFATCA APRM at Tehran. Happy reading!

Joy B.
Technical & Professional Secretary, IFATCA

The Controller app

IFATCA Publication

October 20th marks the birth of IFATCA. Our Federation was established at a meeting in Amsterdam on October 20th 1961. Since then, Air Traffic Controllers around the world celebrate the day as the International Day of The Controller. Many Member Associations host special events to draw the attention of the general public to what is still a relatively unknown profession.

Coinciding, IFATCA and the editorial team of The Controller, our Federation's magazine, is proud to launch The Controller app. Currently available for Apple's iPad and iPhone devices, the app can be downloaded for free in the iTunes App store. After downloading it, it will be available in the Newsstand folder.

Single issues cost \$0.99 / ?0.89, but a subscription is also available: this gives you access to all previous issues as well for one year. Currently, all issues since the end of 2006 are available, with more to come soon.

An Android version will also be available before the end of the year.

ICAO Global

Flight Data Analysis Programme Manual (Doc 10000 AN/501)

ICAO DOC

This manual is addressed to States providing oversight to air operators as well as air operators performing commercial air transport operations with aeroplanes and helicopters.

The objective of this manual is to provide:

- a description of the relationship between SMS and FDAP;
- an overview of the FDAP elements; and
- guidance for the establishment and implementation of a FDAP.

ICAO SLEDs: Register of State Letters

The only way most controllers can respond to proposed changes is through IFATCA's 'observer status' with ICAO. All ICAO State Letters (SLEDs) sent to IFATCA are forwarded to our Member Associations through the IWEN. You, the MA, can consider the State Letters and forward your view to the IFATCA contact by the date in the 'REPLY TO/BY' date column. These views will be collated by the Executive Board and included in the preparation material for our response to ICAO: allowing us to have a broader cross-section of views from the ATC community as well as providing MAs with this unique opportunity.

NUMBER	SUBJECT	REPLY TO/BY	IFATCA REPLY
2013/72 click here	ICAO Regional Seminar on Machine Readable Travel Documents and Traveller Identification Management, Ouagadougou, Burkina Faso, 12 to 14 November 2013		Information

ATC Guild (India) Seminar on Int'l Day of the Air Traffic Controllers 2013

Indian aviation authorities should strive to add more capacity than currently required to keep pace with the massive growth in the sector projected over the next decade, Heavy Industries Minister Praful Patel said today.

"Civil aviation in India has come a long way since 2004-05. But we have just made a beginning. India's aviation sector will certainly become ten times larger in the next 10-15 years. What we are witnessing today is the setting of the foundations for that to happen," Patel said at a seminar organised by the Air Traffic Controllers' Guild (India).

Safety vs Cost

Hindsight 17 - Summer 2013

Sending our families and friends to travel by air and worrying if their baggage will be lost or damaged or if they will arrive on time often without thinking about ?the worst? comes at a price. A price that may at first glance look as though it is paid by airports, ANSPs, airlines, regulators and other organisations involved in the chain that takes care of safety, but a price that is in the end somehow split between the people paying for their journey and Society in general.

What is the relationship between safety and cost of our operations? How to maintain the sometimes delicate balance between the two? How much more the society is willing to pay for adding yet another safety barrier?

Enjoy reading Hindsight!
