Travel to Brussels

IFATCA EB Message

Please see below a message of the Executive Board

Dear All,
The Belgian authorities lowered the threat level from 4 to 3. The IFATCA Executive Board is of the opinion that travel to Brussels can be considered again, but with caution.

SESAR VP-798 Validation Exercise

IFATCA Meeting Report

The following report is a sum-up of the observing activity taken by the IFATCA representative Giorgio Matrella within the simulations VP-798 of the SESAR project P04.07.02 'Separation Task in En Route Trajectory based environment'.
The exercise addressed Free Route operations by focusing on Conflict Management and Automation; ground based separation provision, inter-sector and inter-ATSU (Air Traffic Service Unit) coordination procedures. Free Routing Airspace (FRA) concept, together with Conflict Detection (CD) aid for Tactical Controller (TC) and Planner Controller (PC), Monitoring Aids (MONA), and Extended ATC Planner (EAP) concept related to early de-complexity were in this circumstance addressed.
The Real Time Simulation (RTS) took place at DSNA/DTI (Direction des Services de la Navigation Aérienne/Direction de la Technique et de l'Innovation) R&D (Research and Development) facilities in Toulouse France from March the 7th to the 11th 2016.

ICAO Global

ICAO State Letters

The only way most controllers can respond to proposed changes is through IFATCA's status with ICAO. All ICAO State Letters (SLEDs) sent to IFATCA are forwarded to our Member Associations through the IWEN and our MAs can respond to the IFATCA CONTACT listed in the 'REGISTER OF STATE LETTERS' in IWEN. You, the MA, can consider the State Letters and forward your view to the IFATCA contact by the date in the 'REPLY TO/BY' date column. These views will be collated by the Executive Board and included in the preparation material for our response to ICAO; allowing us to have a broader cross-section of views from the ATC community as well as providing MAs with this unique opportunity.
