Information for MAs & IFATCA Reps

ICAO Workshop and IFATCA Panel

With weeks to go until the 55th Annual Conference of IFATCA in Las Vegas, the Executive Board and Organising Committee is pleased to announce a workshop. The ICAO workshop will be held on Wednesday March 16th, starting at 15:30. It will look at how IFATCA can support ICAO's strategic objectives.

ICAO Workshop and IFATCA Panel

The IFATCA panel will be held on Thursday 17 March 2016, from 10:00am until 12:30pm. Theme of the panel will be Global Partnerships. Teri Bristol (COO FAA), Jeff Poole (DG CANSO), Frank Brenner (DG EUROCONTROL), Rip Torn (Chairman IFALPA ATS Committee) and Patrik Peters (President & CEO IFATCA) will give their views on the topic of Global Partnerships and what they mean for IFATCA and its members.

Wearing the Badge

IMPORTANT

For security reasons you will need to wear a badge (i.e. to register) to be able to enter the conference area, which includes the Opening plenary on Monday morning. The registration desk in the Conference centre will be open on Sunday 13 March from 9:00am until 5:00pm, and from 07:30am on Monday.

So if you are unable to register on Sunday, please come early to register on Monday.

The Opening plenary starts at 09:00 and we need at least one Director or Deputy director registered per MA present to ensure a quorum.

***** WITHOUT A BADGE, YOU WILL NOT BE ABLE TO ENTER THE CONFERENCE AREA *****

IFATCA 2016 Video Clip

Dear all,

- 1) In preparation for conference 2016 I would like to ask you a few questions:
In what do you want conference to achieve (realistically)? What are your expectations?
- 2.) What does conference mean to you?
- 3.) Why do you attend conference?

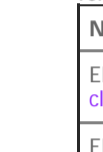

If you want to share this with me, please send me a short video clip (not more than 15 sec. and no large files; best taken with your smart phone) to patrik.peters@ifatca.org or pcx@ifatca.org.

Use the subject line: IFATCA 2016 clip

Thank you very much! See you soon in Las Vegas!

Patrik Peters
IFATCA President & CEO

United States Currency

IMPORTANT

IMPORTANT: We will only accept United States currency at #IFATCA2016. Please exchange your money in your home countries, or use the Traveler's Exchange Service at McCarran Las Vegas Airport when you arrive. They are located in Terminals 1 & 3 in the baggage claim areas.

ICAO Global

ICAO State Letters

The only way most controllers can respond to proposed changes is through IFATCA's status with ICAO. All ICAO State Letters (SLEDs) sent to IFATCA are forwarded to our Member Associations through the IWEN and our MAs can respond to the IFATCA CONTACT listed in the REGISTER OF STATE LETTERS in IWEN. You, the MA, can consider the State Letters and forward your view to the IFATCA contact by the date in the 'REPLY TO/ BY' date column. These views will be collated by the Executive Board and included in the preparation material for our response to ICAO; allowing us to have a broader cross-section of views from the ATC community as well as providing MAs with this unique opportunity.

Ratification of the Civil Aviation Bill, N.A.B. No 28/2015

GATCOZ appeared before a parliamentary committee on transport and communications to present the Ratifications of the Civil Aviation Bill which is at committee stage. This followed an invitation letter and a hard copy written to the GATCOZ president inviting him and the executive committee to appear before the parliamentary committee on 18th February 2016.

Attached is a copy of the Ratifications as presented to the committee.

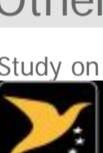

Regards
Zephania Sholobela
President

Other Information

Study on models and methodology for safety assessment of Runway End Safety Areas (RESA)

Over the last years, several safety studies as well as overrun and undershoot accidents have indicated that the risk associated with undershoots and in particular with overruns continues to be significant. Thus, emphasizing the importance of a properly designed RESA (Runway End Safety Area) in mitigating the consequences of such accidents. However, many aerodromes were constructed before the RESA requirements were introduced and are often faced with land restrictions which result in a possible deviation from the requirements.

Based on historical data of overruns and undershoots (for aircraft with MTOW of 2250 kg or above) the study integrates the probability of an overrun or undershoot occurrence with the probability of the location where the aircraft ends or hits the surface near the runway end taking into consideration aerodrome related risk factors.

The study also includes example applications of RESA risk assessment method to real cases of aerodromes in Europe.

The results of this study are inputs to be used by EASA in future rulemaking actions and other regulatory material in the RESA field.
